

**Fast Construction,  
Higher Profits!**

## **WELDED WIRE MESH**

**(MADE FROM COLD ROLLED DEFORMED BARS)**

Welded Mesh is the need of the hour in countries such as India.

Welded wire mesh is used as steel reinforcement in concrete. It is used in place of the the traditional "cut & bend" system.

Surana Wires is India's leading manufacturer of high-quality Welded Wire Mesh and allied wire products. Committed to supplying absolute quality, design and durability in products.

### **Longitivity**

Weldmesh stays where you place it and has excellent adherence to concrete.

### **Time Saving**

Welded Wire Mesh can be placed in position relatively faster compared to placing individual bars.

### **Cost Effective**

Reduced construction cost due to enhanced speed of construction

**De-form  
Wire**

**5/6/7/8  
mm**

**BIS  
Standard**

**IS432  
Part II**

**De-formed  
Welded Mesh**

**BIS  
Standard**

**S1566**

**Proof Stress> Tensile Stress  
480 N/mm2 > 570 N/mm2**

**Elongation  
> 8%**
